New Legislation:

Permitting System Updates: (Please include money or time saving changes)
We are striving to make Indiana Online Permit System user friendly. We currently work on changes and issues to help improve the big and little things that would make a difference to our carriers. We listen and review suggestions that are given to us. we have a few things that will take programming changes to fix but until then we do things manually to work around the issues.

Procedural Changes:
Effective April 1, 2012 Indiana OSW permits will no longer require an authorizing signature.
The signature line has been removed on the M-233P to facilitate this transition.

The driver may now legally display the permit by showing either:

1. A printed copy of your M-233P
2. A PDF format digital document on an electronic device: smartphone, laptop, tablet or other suitable device capable of clearly displaying the PDF of your M-233P

The driver must continue to keep the M204 (general provision sheet) in the truck. The M204 may be kept as a paper copy or as a PDF on an electronic device.

Innovative or Special Initiatives:

New/Unique Communication Efforts: (Describe any outreach to your carrier population)

Special Challenges Affecting Permit Operations:

Uniformity Pursuits:
Dimensions and Escort Certification across the states

Areas of Concern:
