Completed By: ANGELA WOODARD

Permits Issued Prior Year: 290,291

Permits Issued Year To Date: 235,894

Number of Staff Issuing Permits: 6

Does your State offer
Online Requests: Yes No

If yes what percentage
Of permits does your
System issue without
Your review? 35% approximately

New Legislation:
N/A

Permitting System Updates: (Please include money or time saving changes)

Procedural Changes:
April 1, 2012 we stopped accepting faxed in permit request.
June 29, 2012 we began to allow presentation of permits electronically

Innovative or Special Initiatives:

New/Unique Communication Efforts: (Describe any outreach to your carrier population)
We place notifications on the Home page /Dashboard for carriers to see when they log in. We will do an Email blast if we find it necessary but it does not cover all carriers because some carriers did not fill out the email request or they have not updated their email or it goes to someone else that does not deal with permits. The last resort we will do mass mailing if need be.

Special Challenges Affecting Permit Operations:

Staffing and the windmill farm project in Indiana and the amount of permits being requested and the deadline they have. The challenge is scheduling all these loads and having the ISP staffing to cover which is hard because they are short staff as well along with loads that need escorted.

Uniformity Pursuits:

Working with the states to come to an agreement on uniformity and we are getting one step closer.

Areas of Concern:

Successes:
