New Legislation:

Permitting System Updates: (Please include money or time saving changes)

Procedural Changes:

Effective 7/30/2019, new permit type in MiTrip application allows businesses to apply for annual permits for power unit only for hauling construction equipment. Instead of obtaining multiple permits (a permit for each trailer and each piece of equipment transported, in addition to the permit for the power unit), a new annual permit is available for the power unit that would also cover the trailer and equipment that the power unit is hauling, as long as the weight and size limits stated in the permit are not exceeded.
